

# Spare Part kits

## - Easy maintenance without worries

Caring about the environment, we always suggest and recommend life-prolonging service and maintenance of pumps and equipment.

For you to do so - you need to require various spare parts from JS Proputec from time to time, or preferably simply order a pump specific spare part kit when you order your pump.

This way, you will not have to wait for the shipment of spare parts, and your pump can be up and running in no time. In addition the freight and the derived environmental impact can be avoided.

To ease this process, we have gathered spare part kits for several standard pumps - both when it comes to a full overhaul (order a large kit) or a minor one (order a small kit). **Only thing you need to tell us is the PUMP NO.**

The pump no. is the unique identification of your specific pump - and by informing this, we make sure, that the parts you receive will fit perfectly.

Spare Part kit Large - 200/60 MS				Spare Part kit Large - 450 MS HP

<b>Small Spare Part Kit</b>	<b>Large Spare Part Kit</b>
-----------------------------	-----------------------------

This kit contains all the necessary wearing parts like lamellas, cam discs, wearings bars, sealings and bearings.

This kit is great for overall services and life prolonging maintenance that will secure great performance and smooth pumping.

For major overhauls that will bring the pump back to "good as new" condition.

This kit furthermore includes the top and bottom plate + the knives for the in- and outlet. Recommended for pumps that are heavily worn and has lost performance.
